

ENTRANCE EXAMINATION-2018**M.A. (Applied Psychology)****Set C**

ROLL NO.

--	--	--	--	--	--	--	--	--	--

Time: 1 Hour 45 Minutes

Signature of Invigilator

Total Marks: 100

Instructions to Candidates

- Do not write your name or put any other mark of identification anywhere in the OMR Response Sheet. IF ANY MARK OF IDENTIFICATIONS IS DISCOVERED ANYWHERE IN OMR RESPONSE SHEET, the OMR sheet will be cancelled, and will not be evaluated.
- This Question Booklet contains the cover page and a total of **100 Multiple Choice Questions of 1 mark each**.
- Space for rough work has been provided at the beginning and end. Available space on each page may also be used for rough work.
- There is negative marking in Multiple Choice Questions. For each wrong answer, 0.25 marks will be deducted.
- USE OF CALCULATOR IS NOT PERMITTED.
- USE/POSSESSION OF ELECTRONIC GADGETS LIKE MOBILE PHONE, iPhone, iPad, pager ETC. is strictly **PROHIBITED**.
- Candidate should check the serial order of questions at the beginning of the test. If any question is found missing or out of order, it should be immediately brought to the notice of the Invigilator. No pages should be torn out from booklet.
- Answers must be marked in the OMR response sheet which is provided separately. OMR Response sheet must be handed over to the invigilator before you leave the seat.
- The OMR response sheet should not be folded or wrinkled. The folded or wrinkled OMR/response Sheet will not be evaluated.
- Write your Roll Number in the appropriate space (above) and on the OMR Response Sheet. Any other details, if asked for, should be written only in the space provided.
- There are four options to each question marked A, B, C and D. Select one of the most appropriate option and fill up the corresponding oval/circle in the OMR Response Sheet provided to you. The correct procedure for filling up the OMR Response Sheet is mentioned below.
- Use **Black or Blue Ball Pen** only for filling the ovals/circles in OMR Response Sheet. Darken the selected oval/circle completely. If the correct answer is 'B', the corresponding oval/circle should be completely filled and darkened as shown below.

CORRECT METHOD			
(A)	●	(C)	(D)

WRONG METHOD															
(A)	✗	(C)	(D)	(A)	✗	(C)	(D)	(A)	✗	(C)	(D)	(A)	✗	(C)	(D)

1. Leadership relates to a _____, while a leader is a _____.
 - A. Concept; theory
 - B. Cultural trait; behavior
 - C. Process; person
 - D. All of the above
2. According to Fielder's contingency theory, which of the following factors is most related to appropriate leader behaviors?
 - A. Leader member relations
 - B. Task structure
 - C. Strength of the leader position power
 - D. All of the above
3. Which of the following types of leader is most likely to say whatever the group does is fine with him or her?
 - A. Laissez-faire leaders
 - B. Democratic leaders
 - C. Autocratic leaders
 - D. Designated leaders
4. What is the fourth stage of team/group development as proposed by Tuckman (1965)?
 - A. Forming
 - B. Storming
 - C. Performing
 - D. Norming
5. When a leader is influencing follower because of his/her high knowledge and skills, which base of power is being used?
 - A. Expert power
 - B. Reward power
 - C. Legitimate power
 - D. Referent power
6. Therapies based on classical conditioning are:
 1. Implosive therapy
 2. Flooding
 3. Omission training
 4. Systematic desensitization
 - A. 1 and 2
 - B. 1 and 3
 - C. 2 and 3
 - D. 2 and 4
7. Tiny gap between the axon terminal of one neuron and the dendrites or cell body of the next neuron is:
 - A. synaptic knob
 - B. synapses
 - C. synaptic cleft
 - D. synaptic vesicles

8. Amnesia of an event or period of time is known as:
A. selective
B. fugue
C. localized
D. specific
9. Cognitive therapy when added to exposure bolsters symptom relief for _____ but not _____.
A. Social phobia, specific phobia
B. Specific phobia, social phobia
C. PTSD; any other anxiety disorders
D. GAD; PTSD
10. The etiology of anxiety disorder focuses on a multitude of aspects including changes in the activity of neurotransmitter:
A. Dopamine
B. Melatonin
C. Acetylcholine
D. Norepinephrine
11. Abnormal psychology focuses on all of the following EXCEPT _____.
A. Mental disorders as statistical and social deviance
B. Mental disorders as social constructions
C. Mental disorders as predictable behaviour
D. Mental disorders as maladaptive behavior
12. The two primary concerns in the clinical psychology practice are _____ and _____.
A. diagnosis, prevention
B. prevention, treatment
C. development, treatment
D. diagnosis, treatment
13. What is the most widely known mood disorder?
A. Substance abuse
B. Depression
C. Anxiety
D. Bipolar disorder
14. The clinical psychology field covers a broad range of disciplines except _____.
A. learning and behavioral processes
B. psychopathology
C. personality development
D. testing and psychotherapies
15. The main purpose of clinical psychology is:
A. To describe, explain, predict, and change human behaviour
B. To conduct research on mental disorders
C. To develop new testing measures to identify mental disorders
D. To teach psychology courses in an academic setting

16. The ways in which individuals interpret, analyze, remember, and use information about social world is-
- A. Social attribution
 - B. Social cognition
 - C. Social psychology
 - D. Social loafing
17. A general method for dealing with environment is known as:
- A. Intelligence
 - B. Perceptual style
 - C. Personality
 - D. Cognitive style
18. Stereotypes are:
- A. Specific schemas
 - B. Widely held beliefs
 - C. Equivalent to prejudice
 - D. None of the above
19. The generic drug names that lower anxiety and reduce stress is called..
- A. Barbiturates
 - B. Caffeine
 - C. Nicotine
 - D. Benzodiazepines
20. is the reinforcement of a response by the removal, escape from or avoidance of an unpleasant stimulus is called...
- A. Negative reinforcement
 - B. Positive reinforcement
 - C. Punishment
 - D. None of the above
21. Which technique out of the following is not based on operant conditioning?
- A. Behavior modification
 - B. Token economy
 - C. Applied behavior analysis
 - D. Flooding
22. Bandura (1986) concluded that the presences of four elements are required for the observational learning to take place. Three of them are... Attention, Memory, Imitation. What is the fourth one?
- A. Latent learning
 - B. Desire
 - C. Insight
 - D. Instinctive drift
23. is the tendency of the learner to remember information at the beginning of a body of information better than the information that follows.
- A. Recency effect
 - B. Automatic coding
 - C. Primacy effect
 - D. None of the above

24. The tendency to search for evidence that fits one's beliefs while ignoring any evidence that does not fit those beliefs is called as
- Confirmation bias
 - Mental set
 - Functional fixedness
 - None of the above
25. Analytical and creative intelligence are two of the intelligences of Sternberg's triarchic theory of intelligence. What is the third one?
- Naturalist
 - Existential
 - Practical
 - Musical
26. Who gave the formula for IQ?
- Stern
 - Terman
 - Binet
 - Wechsler
27. In Piaget's theory, the tendency of a young child to focus only on one feature of an object while ignoring other relevant features is called..
- Conservation
 - Centration
 - Scaffolding
 - ZPD
28. Resistance and emotional exhaustion are the second and third stages of GAS (General Adaptation Syndrome), what is the first stage of this model?
- Alarm Reaction
 - Natural killer cell
 - Primary appraisal
 - Secondary appraisal
29. Where is the headquarters of the Centre for Policy Research (CPR) located?
- Kochi
 - Lucknow
 - New Delhi
 - Jaipur
30. Which committee has been constituted by the Reserve Bank of India (RBI) to look into bank frauds?
- Y. H. Malegam committee
 - A.K. Misra committee
 - Nand Kumar Sarvade committee
 - S. Raman committee

- s not
31. Which country has recently declared to impose a 'carbon tax' from 2019 to cut its greenhouse gas emissions?
- India
 - Singapore
 - Malaysia
 - Japan
- f
32. Who is the chairperson of the Empowered Expert Committee (EEC) which has been constituted by the University Grants Commission (UGC)?
- Rustam Singh
 - Jorge Paulo Lemman
 - Tarun Khanna
 - N. Gopalaswami
33. Where is Rajiv Gandhi Indoor Stadium located?
- Imphal
 - Guwahati
 - Kochi
 - Delhi
34. Who is the founder of Paytm?
- Madhur Deora
 - Shankar Prasad Nath
 - Vijay Shekhar Sharma
 - Kailash Giri
35. Recently India signed a MoU with Germany. It is related to.....?
- Education
 - Agriculture
 - Cybercrime
 - Urban Basic Services
36. In a bid to keep the world famous one-horned rhinoceros of Assam under the global spotlight, Assam Government has decided to celebrate..... as 'Rhino Day'?
- January 10
 - September 22
 - February 22
 - June 10
37. Martyr's Day is observed on the occasion of the death anniversary of.....?
- Mahatma Gandhi
 - Jawaharlal Nehru
 - Bhagat Singh
 - None of the above
38. When is National Girl Child Day observed?
- January 25
 - January 24
 - February 24
 - March 18

39. Research conducted by watching other people's behavior as they go about their normal routine is called
- Naturalistic Observation
 - Participant Observation
 - Survey
 - Case Study
40. An in-depth study of a particular individual is called as
- Experiment
 - Case Study
 - Survey
 - Correlational Study
41. The method that allows cause and effect inferences is called
- Correlational Study
 - Case history
 - Experiment
 - Case study
42. The first step in conducting an experiment is to
- Choose a sample
 - Choose a dependent variable
 - Formulate a hypothesis
 - Control a condition
43. When neither experimenter nor the subject knows who is assigned to the experimental and control groups. The technique is called ?
- The self-fulfilling prophecy
 - Demand characteristics
 - Single blind technique
 - Double blind technique
44. According to APA, a researcher must not
- Refuse to let human quit in the middle of the experiment
 - Subject a human to physical discomfort
 - Refuse to let a human subject join an experiment
 - None of the above
45. A group of 4 year olds is given an IQ test, then retested at the age of eight, twelve, and twenty. This is an example of
- Cross age study
 - Cross sectional study
 - Longitudinal study
 - Cross age group study
46. When the same group of subjects is tested in two different conditions and inferences are made. The design is called?
- Multiple group design
 - Between group design
 - Within group design
 - Inside group design

47. A researcher wants to study self-esteem of single mothers. He/She went to a single mother and asked her to refer to another single mother as per her knowledge. This technique is called as
- Simple random sampling
 - Locality sampling
 - Snow Ball
 - References sampling
48. The graphical representation of correlational data is called
- Correlational graph
 - Correlational Plot
 - Scatter plot
 - Variability plot
49. Correlation coefficient ($r = .67$) indicates
- A weak positive correlation
 - A weak negative correlation
 - A strong positive correlation
 - A strong negative correlation
50. Type 1 error is said occur when
- Null hypothesis is actually true but rejected
 - Null hypothesis is actually false but accepted
 - Null hypothesis is actually true and accepted
 - None of the above
51. Which test is also known as F test?
- T-test
 - Anova
 - Chi square
 - Correlation
52. Which of the following level of measurement is not used in psychology?
- Ratio scale
 - Interval scale
 - Ordinal scale
 - Nominal scale
53. Which of the following is not a measure of central tendency?
- Mean
 - Median
 - Mode
 - Standard deviation
54. A non parametric equivalent of the independent sample t test is
- Mann Whitney test
 - Wilcoxon matched pair test
 - Sign test
 - Median test

- single mother and
e is called as
55. Which of the following is NOT true about the standard error of a statistic?
- The standard error measures, roughly, the average difference between the statistic and the population parameter.
 - The standard error is the estimated standard deviation of the sampling distribution for the statistic.
 - The standard error can never be a negative number.
 - The standard error increases as the sample size(s) increases.
56. Which of the following analysis is not admissible with nominal data?
- Frequency
 - Chi square
 - Mean
 - Proportion
57. Who gave the concept of t-test?
- Sir William Gossett
 - Ronald Fisher
 - Spearman
 - Cattell
58. Who is considered to be the father of human resource management?
- George Elton Mayo
 - Henri Fayol
 - Frederick Winslow Taylor
 - None of the above
59. Who gave the 14 principles of management?
- George Elton Mayo
 - Henri Fayol
 - Frederick Winslow Taylor
 - None of the above
60. "The whole is greater than sum of the parts and that the parts or subsystems are related to each other and to the whole" are emphasized in
- Motivation theory
 - Contingency theory
 - Systems theory
 - Administrative theory
61. What is the full form of ERG (ERG theory)?
- Existence relatedness and growth
 - Existence rational and growth
 - Existence remote and growth
 - None of the above
62. Which of the following is not a need as per need theory of McClelland?
- Achievement
 - Power
 - Affection
 - Affiliation

- the
he
63. Which cricketer was named by the International Cricket Council (ICC) as the 'Cricketer of the Year' for 2017?
 A. Virat Kohli
 B. Rohit Sharma
 C. Jasprit Bumrah
 D. Ravichandra Ashwin
64. Which is the first state to unveil public cloud policy which will allow all government departments to have access to public cloud?
 A. Maharashtra
 B. Delhi
 C. Gujarat
 D. Uttar Pradesh
65. What is the full form of UIDAI?
 A. Unique Identification Authority of India
 B. Unique Identity Authorization of India
 C. Unique Identification Authorization of India
 D. None of the above
66. Where will the 2018 Common Wealth Games be held.....?
 A. Australia
 B. India
 C. Japan
 D. China
67. Who won the Miss Universe 2017 title?
 A. Manushi Chhillar, India
 B. Andrea Meza, Mexico
 C. Demi- Leigh Nel- Peters, South Africa
 D. Stephanie Hill, England
68. India's first 5G network trial was conducted by Airtel and?
 A. Intel
 B. Ericsson
 C. Huawei
 D. Cisco
69. How many pacts were signed between India and Canada during the maiden visit of Canadian Prime Minister Justin Trudeau in India?
 A. 7
 B. 6
 C. 5
 D. 8
70. Which Indian Bank will undergo a major restructuring of its business in United Kingdom (UK) from April 2018?
 A. Punjab National Bank
 B. ICICI Bank
 C. State Bank of India
 D. Bank of Baroda

71. Name the first Indian gymnast to have won an individual medal at Gymnastics World Cup?
A. Aruna Reddy
B. Dipa Karmakar
C. Rucha Divekar
D. Kshipra Joshi
72. United States will move its embassy in Israel from..... to Jerusalem by May of this year?
A. Haifa
B. Eilat
C. Tel Aviv
D. Beersheba
73. Psychologist who stressed the importance of cultural and social factors in personality development.
A. Alfred Adler
B. Karen Horney
C. Carl Jung
D. Sigmund Freud
74. The neo- Freudian include:
A. Hans Eysenck, Karen Horney, Albert Bandura
B. Carl Roger, Sigmund Freud, Alfred Adler
C. Carl Jung, Karen Horney, Alfred Adler
D. Alfred Adler, Albert Bandura
75. Albert Bandura was a proponent of which perspective of personality?
A. Psychoanalytic
B. Behaviourist
C. Humanistic
D. Social Cognitive
76. Which of the following Personality disorder is not under Cluster B?
A. Schizoid Personality disorder
B. Borderline Personality Disorder
C. Anti Social Personality Disorder
D. Narcissistic Personality disorder
77. Which of the following is based on Five Factor model?
A. 16 Pf
B. MMPI-2
C. NEO-PI
D. MCMI
78. How many Inkblots are there in Rorschach Inkblot test?
A. 5
B. 6
C. 8
D. 10
79. People who are particularly interested in studying patterns of behaviour, beliefs and values which are shared by people:
A. Social psychologists
B. Clinical psychologists
C. Experimental psychologists
D. Counsellors

80. When making the attribution error people tend to overestimate the importance of -----in judging the behaviour of others:
- Situational factors
 - Personal factors
 - Intelligence
 - Motivation
81. Sherif's study using autokinetic phenomenon suggest:
- Compliance
 - Obedience
 - Acceptance
 - Reactance
82. A change in behaviour or belief as a result of real or imagined group pressure is:
- Compliance
 - Obedience
 - Reactance
 - Conformity
83. Groupthink is:
- When an attitude becomes stronger in group presence
 - Thinking that revolves around keeping harmony within a group though not disagreeing with group opinion
 - Improved performance when people are watching
 - The loss of identity due to group situation
84. Which research technique would most likely be used by a symbolic interactionist?
- Surveys
 - Participant observation
 - Quantitative data analysis
 - Experiments
85. Which one of the following is not the method of estimating reliability?
- Test retest method
 - Split half method
 - Convergent reliability
 - Cronbach Alpha
86. According to APA and NCME (1985), there are how many types of Validity?
- 1
 - 2
 - 3
 - 4
87. The idea of tracking is used in ...
- Percentile Norms
 - Standard score norms
 - Within group norms
 - None of the above

88. The idea that every obtained score is composed of true score and error score is based on which theory?
- Classical test theory
 - Latent growth theory
 - Modern theory
 - None of the above
89. Reliability of test depends on which of the following?
- Sample Size
 - Number of items
 - Norms of the test
 - None of the above
90. If the construct has more than one underlying factors, then it will have what effect on reliability?
- Unchanged
 - Lower the reliability
 - Increase the reliability
 - None of the above
91. In classical conditioning, an unlearned, inborn reaction to an unconditioned stimulus is a/an....
- Unconditional stimulus
 - Conditional stimulus
 - Unconditional response
 - Conditional response
92. Learning that results from the consequences of behaviors is called
- Operant conditioning
 - Classical conditioning
 - Positive conditioning
 - Extinguished conditioning
93. The belief that intelligence is a general ability is a result of the work of:
- Binet
 - Gardner
 - Sternberg
 - Spearman
94. Which perspective is often referred to as the 'third force' in Psychology?
- Biopsychosocial
 - Behaviorism
 - Cognitive psychology
 - Humanism
95. The cell body of the neuron responsible for maintaining the life of the cell is called....
- Soma
 - Axon
 - Diffusion
 - Nerves

96. The neuron that carries information from the senses to the central nervous system is called.....
 A. Efferent neuron
 B. Reflex
 C. Neurotransmitter
 D. Afferent neuron
97. are the visual sensory receptors found at the back of the retina, responsible for non-color sensitivity to low levels of light.
 A. Cones
 B. Blind spot
 C. Rods
 D. Dark adaptation
98. is the snail shaped structure of the inner ear that is filled with fluid.
 A. Cochlea
 B. Pinna
 C. Pitch
 D. Auditory nerve
99. Which out of the following is not the monocular cue of depth perception?
 A. Relative size
 B. Linear perspective
 C. Binocular disparity
 D. Texture gradient
100. Brain waves that indicate a state of relaxation or light sleep is called
 A. Alpha waves
 B. Beta waves
 C. Theta waves
 D. Delta waves

afferent-
 Sense → CNS
 CNS → motor
 efferent-
